Become a Business Central Master

As a controller or a member of the accounting Staff, training in the functionality provided by Business Central is crucial to ensure that you are using the system to its fullest extent. This hands-on training will allow to you learn how to set up and use the various accounting functions in Business Central.

Unlike other training that just shows you how things work, this training will give you an opportunity to enter and post actual transactions, run reports, and test setup changes. Attendees will be able to use an actual Business Central database complete with sample data where they can practice transactions, update set up tables, run reports, and test all the required functionality.

Class Audience

Finance Directors

Controllers

Accounting Staff
